Peter Lovett is the Founder and Director of Green Pass, an energy advisory services company at the forefront of assisting commercial building owners and managers understand and manage energy efficiency, and ensure compliance with Building Energy Efficiency Disclosure Act 2010.

A NABERS Accredited Assessor and a Building Energy Efficiency Certificate (BEEC) specialist, Peter's core operations and expertise are NABERS ratings and BEEC assessments for offices, shopping centres and hotels throughout Australia.

Peter works with companies to ameliorate energy use and reduce costs by creating targets, managing CBD Program obligations, assessing environmental performance including conducting NABERS ratings and offering general efficiency guidance.

Peter has a decade of experience working with top-tier Australia property companies as well as small groups on projects of various demands and challenges. Peter is a respected professional in the industry, providing practical, best practice solutions to businesses and valuing client relations with the utmost importance.
